Liège, Belgium

CERTIFICATION

ISA/IEC 62443 Cybersecurity Fundamentals Specialist
ISA · 2026

OT SKILLS

- IEC 62443: zones and conduits, security levels (SL-T / SL-C)
- OT risk analysis, EBIOS RM, ISO 27005
- Network segmentation and OT/IT DMZ
- Multi-site OT Active Directory
- OT asset inventory and mapping
- NIS2 · CyberFundamentals (CyFun)
- FAT / SAT with vendors and integrators
- ISO 27001 · NIST SP 800-53

ENVIRONMENTS

Cisco ISA3000 (FTD) · Check Point
VLAN · DMZ · industrial firewalls
Windows Server · VMware ESXi
SCADA · PLCs · industrial networks
Visio · draw.io

EDUCATION

Engineering degree in IT, networking and security specialisation
ESAIP · 2017 – 2022

Erasmus
Universidad de Castilla-La Mancha · 2021 – 2022

Cisco CCNA training
Course completed

French — native
English — professional working proficiency

AXIONIS CYBER

PAUL LEVRARD

Industrial (OT) Cybersecurity Consultant · IEC 62443

Founder of Axionis Cyber · Belgium and Luxembourg · Available as a freelancer

PROFILE

Cybersecurity engineer with 4 years of experience, including 2 years in industrial environments: the production networks of an energy company, then critical public infrastructure. I help operators secure their control systems in line with IEC 62443: asset inventory, risk analysis, segmentation, procedures and roadmap. Practical deliverables and independent recommendations.

EXPERIENCE

Founder, OT cybersecurity consultant
Apr 2026 – present

Axionis Cyber · Liège

Current assignment (since May 2026): public critical infrastructure operator in Wallonia.

- OT asset inventory and industrial network mapping across **several dozen sites**
- Review of OT architectures and OT/IT segmentation, documentation of the OT application landscape
- **IEC 62443** analysis (zones and conduits, target security levels) and security recommendations
- **NIS2 / CyberFundamentals** compliance scoping and remediation roadmap

Cybersecurity Officer & Industrial Network Expert
Oct 2024 – Oct 2026

Luminus · Liège

Cybersecurity, Industrial Network & Data team: 6 hydro plants, ~130 wind sites, 6 thermal plants.

- **IEC 62443** risk analyses per zone and conduit: risk register, target SLs, treatment plan
- Design, deployment and administration of a multi-site **OT Active Directory**
- **OT/IT DMZ** architectures and network segmentation (Cisco ISA3000, Check Point)
- **CyberFundamentals** maturity assessments (Essential level) across the wind portfolio (~130 sites)
- BESS and NCCGT projects: security specifications, **2 FATs** (Madrid) and **2 SATs** on site
- OT access procedures and operating policies, end-to-end network documentation

Cybersecurity Consultant
2022 – 2024

HeadMind Partners · Brussels, Luxembourg, Paris

- **IAM** for a luxury group: ServiceNow processes and workflows, ~150 user stories, **150,000 accounts**
- **DLP** strategy and **EBIOS RM** risk analysis for a pharmaceutical group (21 risk scenarios)
- **NIST SP 800-53** assessment for a bank: **360 controls** across 5 scopes, remediation plan
- **ISO 27001:2022 ISMS** implementation and pentest report remediation (Luxembourg)
- Security awareness: phishing campaigns (**870 users**), 40 escape-game sessions (200 staff)

SECTORS

Energy (hydro, wind, thermal, battery storage) · Critical public infrastructure · Pharmaceuticals · Banking · Luxury

Previously: cybersecurity internship at SIRI49 (2021), phishing campaigns and awareness for local authorities.
